Gobi, Frost and Durant Advocate for Capital Funds for Charlton

BOSTON – The state’s Five-Year Capital Investment Plan was released in late May, providing resources to maintain and modernize the Commonwealth’s infrastructure. **Senator Anne M. Gobi (D-Spencer), Rep. Paul K. Frost (R-Auburn) and Rep. Peter J. Durant (R-Spencer)** are pleased to announce that included in the plan is funding to improve Charlton’s water infrastructure.

The plan includes \$200,000 for a study relative to the engineering of a new public water supply for the town. There have been issues with contaminated wells in the town and a new water source is badly needed.

"I am glad to see that this necessary step is being addressed. The People of Charlton have had to deal with a myriad of water related issues," said Senator Gobi. "Having a clean and reliable source of water is a priority. I was pleased to work with Robin Craver and the Town officials to advocate for this funding and will continue to work with them and for them."

"We're pleased to help Charlton get this money, with all of the water problems over the years," said Representative Peter Durant. "These dollars can go a long way to help the community provide long term stability in their water infrastructure."

The three legislators worked together to advocate Governor Baker to include this funding in the plan. If you have any questions contact Senator Gobi's chief of staff, Brian Ferrarese at 617-722-1540 or brian.ferrarese@masenate.gov.
